

Digraphs

A consonant digraph consists of two consonants side by side that produce a single sound, e.g. 'sh', 'ch' and 'th'.

1. See how many consonant digraphs you can find in 'Duck for Dinner'. Write them in the table. You only need to write each word once.

sh	ch	th

2. Can you think of any other words that contain the 'sh', 'ch' or 'th' consonant digraphs? Write your words on the lines below.

3. Write down any other digraphs you might know. Remember, these are two letters that make a single sound.
