

# Rodeos KWL

A KWL chart is a tool used to organise your thoughts and knowledge on a topic.

**KWL** is an acronym:

**K:** What you already **K**now

**W:** What you **W**ant to know

**L:** What you have **L**earned

First, read the story 'Collarenebri Cowboy'. Then use this KWL chart to organise your knowledge about rodeos. The first line has been done for you.

K(now)	W(ant to know)	L(earned)
I know that there are cows and horses at rodeos.	I want to know why the cowboys have crazy names.	I learned that 'bleachers' are benches for people to sit on.
