

Planning a Scene Script

Plays are fun to perform, especially when you get to use props, and play with your tone of voice and facial expressions! But you can also create and plan a new scene for your favourite play using the same characters and setting!

What is the title of your scene?

Describe the setting of your scene.

Who are your characters? Briefly describe them.

What is the main event in your scene? What stage directions can you use?

What props can you use?
